

## 007 for Atlas Holding Records in Aleph

*Atlas* (AACR2)

A volume of maps, plates, engravings, tables, etc., with or without descriptive text.

Printed and electronic cartographic material including atlases should be coded as either 'e' (published) or 'f' (unpublished, manuscript) in the bibliographic record type leader field.

**All 'e' and 'f' format records should include an 007 field in associated holding records.**

### 007 – Map (including Atlases)

*Subfields with most commonly used values for paper atlases and atlases on CD, DVD, and online. For complete list of MARC code values consult MARC "Tag information" in Aleph Cataloging Module or MARC21 documentation.*

**Indicators** – both undefined

1<sup>st</sup> [blank]

2<sup>nd</sup> [blank]
